Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.
2. Claims 1-10 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.
3. Regarding claims 1, 3, 5 and 10 they include the limitation "by arranging reception echo signals". It is not clear how the signals are arranged.
4. Regarding claims 2-3, 6-7 and 10, they include the limitation "a signed velocity" it is not clear what a signed velocity means.
5. Claims 1-3, 5-7 and 10, they include the limitation "on the basis of". It appears that --based on-- should have the appropriate term.

Claim Objections

6. Claims 1-3, 5-6 and 10 objected to because of the following informalities: On line 7 of claim 1 after the word "unit" -- configured to-- should be inserted.

On line 6 of claim 3 after the word "means" -- configured to-- should be inserted.

On line 2 of claim 6 after the word "means" -- configured to-- should be inserted and on line 7 after the word "and" --configured--should have been inserted

On line 13 of claim 10 after the word "means" -- configured to-- should be inserted and on line 20 after "signal of" the letter "a" should be changed to --the--

on line 10 of claim 5 after "signal of" the letter "a" should be changed to --the--
on line 9 of claim 2 the term "a signed velocity signal is derided" should be
changed to an appropriate term.

The changes mentioned above are suggested to positively define the claim
limitations

7. The examiner had contacted Applicant's representative Leonid Thenor via phone
on 3/25/2010 in an effort to resolve these issues but fail to solve them in order to put the
application in condition for allowance.

Allowable Subject Matter

8. Claims 1-10 would be allowable if rewritten or amended to overcome the
rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

The claims are allowable because none of the references on records teach
measuring velocity based on Legendre polynomial expansion coefficients starting from
0th degree and the ratio between the magnitude of each complex expansion coefficient
and the magnitude of an interval between complex expansion coefficients.

Conclusion

9. Any inquiry concerning this communication or earlier communications from the
examiner should be directed to JOEL F. BRUTUS whose telephone number is

(571)270-3847. The examiner can normally be reached on Mon-Fri 7:30 AM to 5:00 PM (Off alternative Fri).
